O Allah, send Your blessings, peace, grace, and mercy upon our beloved, our master, and our lord, Muhammad Ahmad, the embodiment of beauty, the very essence of beauty, the beauty of beauty, the axis of the circle of beauty, the sultan of the realm of beauty, the gatherer of beauty, the sun of beauty, the full moon of beauty that never sets nor fades, the crown of beauty, the ocean of beauty, the lights of beauty, the secret of secrets of beauty, and the jewel of beauty, encircled by the walls of divine favors upon all the universes that exist for his sake... O Allah, send Your blessings upon the source of all sources of the manifestation of the effusions of beauty upon all the universes. May Allah's blessings be upon him and his pure family, a blessing that clothes us in the robe of beauty in this world and the hereafter,

and unites our secret with his secret, which is beyond the comprehension of creation, by Your mercy, O Most Merciful of the merciful.
